All-in-One Smart Whiteboard Design, Ideal for the Classroom or Boardroom

CDE6552-TL

The ViewSonic CDE6552-TL is an ideal large format interactive solution for classrooms and meeting room. The multiple touch allows two users to simultaneously write or draw on the board with their fingers or styli. A Full HD LED screen guarantees crisp and vivid content.Visually attractive. Create a more interactive learning and meeting environment with this ViewSonic 65" ViewBoard !

Multiple-Touch Capable Interactive Display

ViewSonic large-format interactive touch displays provide up to 4-point (55" model) and up to 6-point (65", 70", and 84" model) simultaneous touch capability – making it perfect for educational and corporate meeting applications. This feature allows 2 or 3 people to simultaneously write on the display's surface using their fingers or styli.
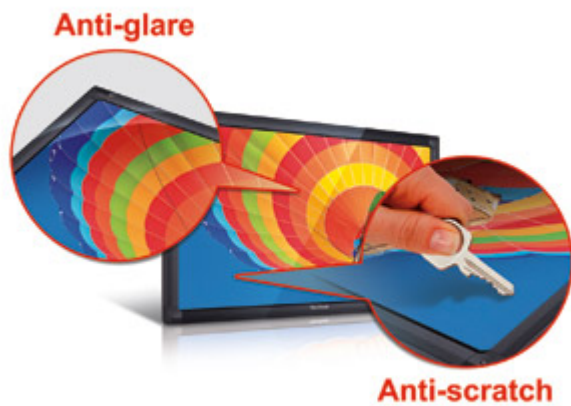

Protective Rounded-Corner Design

Providing a safer learning environment for active students is also an important consideration. That's why ViewSonic large-format interactive touch displays utilize a rounded-corner design to help prevent injuries in the classroom.

Tough Anti-Scratch, Anti-Glare Cover

ViewSonic large-format touch displays are made even more durable by a layer of 7H-hardness tempered glass coupled with an anti-glare film. This material combination provides anti-scratch benefits, while improving screen visibility in bright environments.

Optional Smart Whiteboard Functionality

With the optional slot-in PC, the ViewSonic large-format touch display can be quickly transformed into a Smart Whiteboard (SWB). Its pre-installed ViewBoard software features handwriting, keyword highlighting and meeting notification applications, and allow for cloud server access to teaching and meeting resources via Internet connection.
