

CDE5501-TL

55" Interactive Flat Panel Display

55" Full HD interactive flat panel LED display for education and corporate applications with multi-touch capability to facilitate group interaction and collaboration.

Overview

The CDE5501-TL is a large format interactive display ideal for classrooms and meeting rooms. Its multi-touch capabilities facilitate interaction and collaboration. The Full HD LED screen guarantees crisp and vivid content. Ergonomically designed, this panel display features a tempered-glass overlay, anti-glare glass treatment and rounded-corner housing. Plus, connectivity is never a problem with various input/output options, including 2 HDMI ports, 2 VGA ports, and analog YPbPr and composite video connectors to connect with PCs or media players.

Multiple-Touch Capable Interactive Display

ViewSonic's large format interactive touch displays provide up to 4-point (55" model), or up to 6-point (65", 70", and 84" model), simultaneous touch capability – making it perfect for educational and corporate meeting applications. This feature allows 2 or 3 people to simultaneously write on the display's surface using their fingers or styli.

Protective Rounded-Corner Design

Providing a safer learning environment for active students is also an important consideration. That's why ViewSonic's large-format interactive touch displays utilize a rounded-corner design to help prevent injuries in the classroom.

Tough Anti-Scratch, Anti-Glare Cover

ViewSonic's large-format touch displays are made even more durable thanks to a layer of 7H-hardness tempered glass coupled with an anti-glare film. This material combination provides anti-scratch benefits, while improving screen visibility in bright environments.

Optional Smart Whiteboard Functionality

With the optional slot-in PC, the ViewSonic large-format touch display can be quickly transformed into a Smart Whiteboard (SWB). The pre-installed ViewBoard software features handwriting, keyword highlighting and meeting notification applications, and allow for cloud server access to teaching and meeting resources via Internet connection.
