

ViewSonic® Class Cart

The Complete AV Solution for K-12

Now you can bring a total multimedia solution to all your classrooms at a great price. ViewSonic puts you in control of all your AV equipment with this compact, secure cart. Designed with classrooms in mind, smooth corners for safety, this cart offers complete connectivity in a portable format.

On the move.

The fully loaded AV cart easily wheels from classroom, to auditorium, or even meeting rooms. Designed with large pull out surfaces and a generous desktop, it can accommodate many different teaching styles or multi media presentations. Use the large storage drawer for storing extra peripherals, such as laptops, interactive pads or student response devices.

Full connectivity includes a DVD/VCR combo, Wireless Microphone and Sound System with with a 6 outlet surge protector and a 25 foot power cord. Choose a factory installed ViewSonic projector for a cart system all ready to go when the cart arrives. Or add a projector later with ease, since the control interfaces are all factory tested and preset to work with ViewSonic projectors since the cart's internal cabling is all set up. You can rest assured this AV power house will be ready for any presentation, anywhere on your campus. Plus the solid build and key-lock, completely secure this cart.

Model# **PJ-CART-001** includes:

Cart includes: Wireless microphone, Creative Inspire T3100 2.1 Speaker System, DVD/VCR Combo & TV tuner, preset cabling for projector
