Overview

The ViewSonic® SC-T45 Thin Client PC uses the powerful Intel Atom® N2800 with Windows® 7 Embedded Standard OS. The SC-T45 is optimised for all of the major remote networking protocols including Citrix® ICA/HDX, software accelerated PCoIP™ and Microsoft® RemoteFX™—making it a versatile virtualization solution with endless possibilities. The SC-T45 has the horsepower needed to handle a large portion of local processing and graphics rendering, and the flexibility to operate as a stateless device in a VDI-based infrastructure. The SC-T45 is also an energy and space saver, consuming only 14W of power and easily attaching to your VESA-ready monitor with the included VESA bracket. The SC-T45 Thin Client is the perfect solution for companies seeking the benefits of true PC-like performance, along with simplified management and lower total cost of ownership. ViewSonic's Thin Clients are the smart choice for optimising your virtual desktop deployment.

Powerful Computing Combination

With an Intel Atom processor and a Windows 7 Embedded Standard operating system, the SC-T45 is equipped to handle the highest demands of both virtual and local processing, including the most 2D / 3D graphic intensive applications.

Low Total Cost of Ownership

With easier and faster deployment, simplified management, and increased reliability and security, the benefits and efficiency of ViewSonic's SC-T45 lead to a lower cost of ownership.

Easy Deployment and Management

Deploy users up to 5 times faster than traditional PC-based clients, and enjoy on going simplified management without the need for constant patches and system updates.

Simplified and Secure Management

Microsoft Windows Embedded Device Manager connectivity helps leverage your existing Microsoft System Center Configuration Manager platform. In addition, the free ViewSonic Device Management (VDM) software provides IT administrators with a powerful interface for easier deployment.
