

## Full HD 1080p Digital Camcorder Captures Every Beautiful Moment

**VC310**

ViewSonic's brand new VC310 digital camcorder records life's most precious moments. Equipped with a 3" touch screen, the 4:3 camcorder shoots Full HD 1080p videos and amazing 16 mega-pixel pictures. It's convenient and easy to operate, enabling first-time users to quickly find the right settings and capture high-resolution images. The built-in and high-capacity SD / SDXC card slot supports up to 64GB of memory, so you can store up to 10 hours of full HD video. HDMI output lets you transmit beautiful pictures and videos to a larger screen for your family and friends' viewing entertainment. With the USB connection, transfer content to a storage device, or upload them to YouTube using the bundled software to share your cherished memories with the world.

**1 Full HD 1080p, 16 mega-pixel and HDMI output for perfect capture and playback**

High definition 1080p video resolution allows you to record significant moments in vivid detail and 16MP still image resolution enables clear and brilliant images. Using the HDMI output, transmit your content to a larger screen and enjoy with friends and family.

**2 3" 4:3 touch screen makes operation easy and smart**

The 3" 4:3 display provides excellent recording quality without missing any details, and touch screen capability lets you easily select functions and settings, bringing extreme convenience to your life.

**3 Multiple shooting functions enable flawless visuals**

The VC310 meets your need for advanced photographic effects. With handy face tracking, slow motion, stabilization and time lapse functions, capture dynamic and still images without blur or distortion.

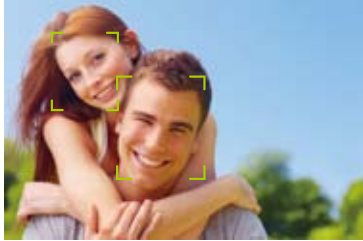

**4 Multiple accesses grant you flexibility of sharing joyfulness**

The VC310 has built-in support for SD / SDX memory cards that store up to 64GB of files, allowing you to shoot up to 10 hours of full HD video. Through the USB port you can charge the camcorder and effectively manage your content by transferring files to a digital storage device. Also, bundled software lets you upload videos onto YouTube to share your memories with more people.

## Special Feature

### Face Tracking

Our advanced Face Tracking feature detects faces in a scene and automatically adjusts the focus and exposure. With Face Tracking, you can effortlessly record bright, clear videos of your family and friends.

### Video Stabilization

The camcorder is equipped with Video Stabilization technology to ensure smooth recorded images. Stabilization precisely tracks even the slightest movements of the camcorder, then corrects the shaking to produce steady videos and crisp images.

No Video Stabilization
