

Full HD 1080p Camcorder Magnifies Your Life

VC320

ViewSonic's VC320 Full HD 1080p digital camcorder magnifies your field of vision tremendously. Unparalleled 23X optical zoom allows you to capture brilliant, lifelike videos without worrying about shooting distance, while the 16 megapixel still image resolution produces crisp, stunning photos. The 3-inch, 16:9 touchscreen lets you quickly browse images and apply features such as face tracking, smile detection and image stability to further elevate picture quality. HDMI output enables playback on a larger screen, so you can share your videos and photos with friends and family. With built-in support for SD / SDXC memory cards up to 64 GB, record and store even more memories. The USB port allows you to transfer content to an external storage device, or upload them to YouTube with the included software to share your life with the world.

1 Record in stunning high definition

With 1920 x 1080 Full HD video, HDMI output and 16 megapixel image resolution, the VC320 captures clear, high-quality pictures and videos that can be transmitted to larger screens.

2 Touchscreen provides easy operation

The 3-inch, 16:9 touchscreen gives you a clear field of view, so you won't miss any details. Easily select functions and adjust settings for convenient operation.

3 Freedom with 23X optical zoom

The VC320 digital camcorder features 23X optical zoom to draw subjects closer while retaining high video quality. Optical zoom is perfect for long-distance shooting in public spaces, outdoor areas, auditoriums and more.

4 Perfect focus

With a variety of functions such as face tracking, smile detection, slow motion, video stabilization and time lapse, capture videos in perfect focus and apply your own effects.

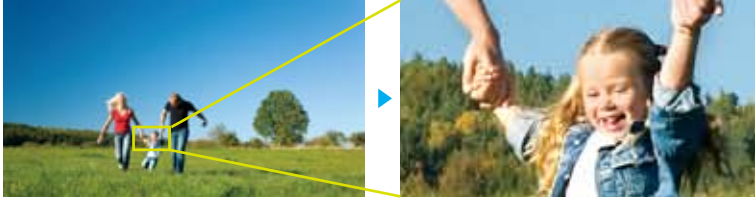

5 Store and share

The VC320 supports SD / SDXC memory cards up to 64 GB, so you can record more than 16 hours of full HD video. Through the USB port, transmitting content to a storage device or uploading them to YouTube via the bundled software is a breeze.

Special Feature

23X Optical Zoom

With a 23X optical zoom lens, the VC320 draws subjects closer while retaining high video quality – even if your subject is 20 meters away.

23X Optical Zoom

Smile Detection

With the camcorder's built-in Smile Detection function, you can capture beautiful photos of your beaming loved ones. After you enable Smile Detect, the camcorder will search for smiles in the frame, then automatically focus and snap a photo when your subjects are grinning.
