VPC101

48cm/19" (47cm/18.5" VIEWABLE) ALL-IN-ONE PC

The solution for a smarter desktop

The ViewSonic® VPC101 All-in-One PC is a full function PC in a stylish, simple package. The high resolution 48cm/19" (47cm/18.5" viewable) LCD display also houses a built-in Intel® Atom® 230 1.6 GHz processor, 1GB RAM and 160GB hard drive. It gives you all the computing power you need for everyday applications. This super-compact, versatile PC can operate independently, hardwired into a LAN network or work wirelessly in any 802.11b/g WiFi network. Easily transfer and share files, photos and more through the 4 USB 2.0 ports or the 4-in-1 card reader. Burn your own DVDs on the included Super-multi drive. It's the smart solution for your home office, student rooms, dorms and more. Surf the web, e-mail, video conference with the simple, powerful VPC101 All-in-One PC.

> 47cm/18.5" display with 1366x768 resolution
  View documents, surf the Internet or watch DVDs in crisp detail on this high resolution 18.5" wide screen.

> Powerful Intel Atom processor
  The Intel Atom 230 1.6GHz processor with 1GB of memory provides plenty of power for desktop computing.

> Versatile connectivity
  Four high-speed USB 2.0 ports provide easy connections for peripherals, while the 4-in-1 card reader allows for easy file transfers.

> Built-in DVD burner
  Easily backup your photos, media and other files with the built-in DVD R/W burner.

> Wired or wireless networking
  RJ-45 network control enables Gigabit Ethernet LAN connection. 802.11b/g WiFi gives you the freedom of locating your VPC101 anywhere in your office or home yet having full access to the Internet.

> Multimedia enhanced
  Integrated microphone and 1.3 megapixel webcam make it easy to video conference and the integrated two 2-watt speakers complement video conferencing and Internet browsing.

> VGA-in port
  Although VPC101 is a standalone PC, the VGA-in port enables it to act as an LCD display for your notebook.

> No more cable mess
  The All-in-One design delivers the clean and clear PC system with all the peripherals a modern workstation prone to have while eliminating all those messy cables and power adapters.
